

Social Monitoring & Reporting: The Role of Official Statistics

Pros and Cons

Stephen Hicks Assistant Programme Director Measuring National Well-being, ONS 8th Conference of 'Social Monitoring and Reporting in Europe' e-frame: Villa Vigoni: 13 -15 March 2013

Overview

- Current state of play
- Strengths & weaknesses
- Developments
- Conclusions to aid discussion

Current state of play

Focussing on what matters?

- Social, Economic, Environmental, Governance?
- Objective & Subjective measures?
- Sustainability?
- Equalities and distributions?
- Coverage?
- Trends?
- How do we know what matters to people?
- Consultation & engagement?
- e-frame 'stakeholder inclusion' project (WP7)

Current state of play

Practical considerations

- Single index?
- Frequency
- Timeliness
- Web based vs. print publications
- Interactive?
- Social Media?

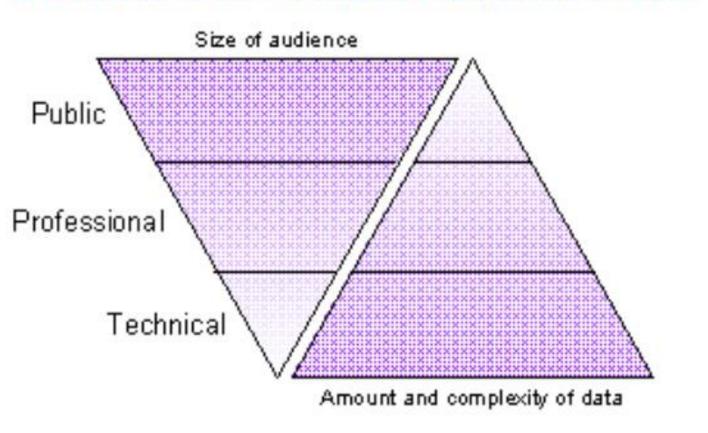

Strengths and weaknesses

Quality	Rating for NSI Social Reporting in Europe
Relevance	
Accuracy & Reliability	
Timeliness & Punctuality	
Coherence & Comparability	
Accessibility & Clarity	

Strengths and weaknesses

Audience?

Statistics New Zealand Audience Model

Developments

....in conceptual underpinnings....

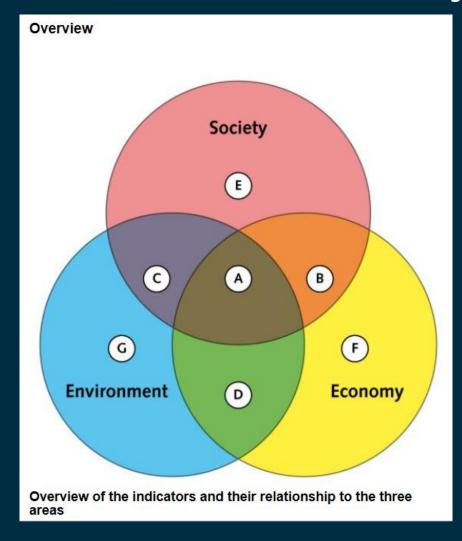

- Progress, well-being & sustainability agendas affecting social monitoring and reporting
- Impact on measurement frameworks

....and in methods of reporting....

- Improving relevance & accessibility
- Reaching a wider audience

Conceptual developments

Swiss - GDP and Beyond Indicators

		F
5 <u>F</u>	Household wealth	В
6 5	Social benefits	В
F	Paid and unpaid work	
7 /	Activity rate	В
8 5	Shortage of work (unemployment and underemployment)	В
9 \	Volume of unpaid work	В
N	Material situation, poverty and life satisfaction	
10 E	Equivalised disposable income	В
11 <u>l</u>	ncome distribution (quintile share ratio S80/S20)	В
12 <u>F</u>	Risk of poverty	В
13 <u>N</u>	Material deprivation	В
14 9	General satisfaction with life	Α
E	Education	
15 E	Educational attainment of the population	В
16 E	Early school leavers	В
H	Health	
17 5	Self-rated health	Е
18)	Years of potential life lost	Α
N	Mobility	
19 <u>F</u>	Passenger transport performance	С
20 🤇	Goods transport performance	D
E	Environment	
21 [Domestic material consumption	D
22 F	Proportion of renewable energies in gross energy consumption	D
23 (Greenhouse qas emissions	D
24 5	Settlement and urban area	G
25 E	Evaluation of the quality of the environment	С

Share of final household consumption accounted for by social transfers in kind

National Well-being

ONS is developing new measures of national well-being. The aim is to provide a fuller picture of how society is doing by supplementing existing economic, social and environmental measures.

Developing better measures of well-being is a long term programme. ONS are committed to sharing ideas and proposals widely to ensure that the measures are relevant and founded on what matters to people.

Measuring National Well-being - Life in the UK 2012

A unique overview of well-being in the UK today in terms of the economy, people and the environment.

Measuring National Well-being publications

A list of articles and reports from the Measuring National Well-being programme and other related ONS outputs.

National Well-being interactive wheel of measures

Play with the measures of national well-being and compare data from recent time series

National Well-being interactive graphs

Selected national well-being measures by country and region

Subjective Well-being interactive maps

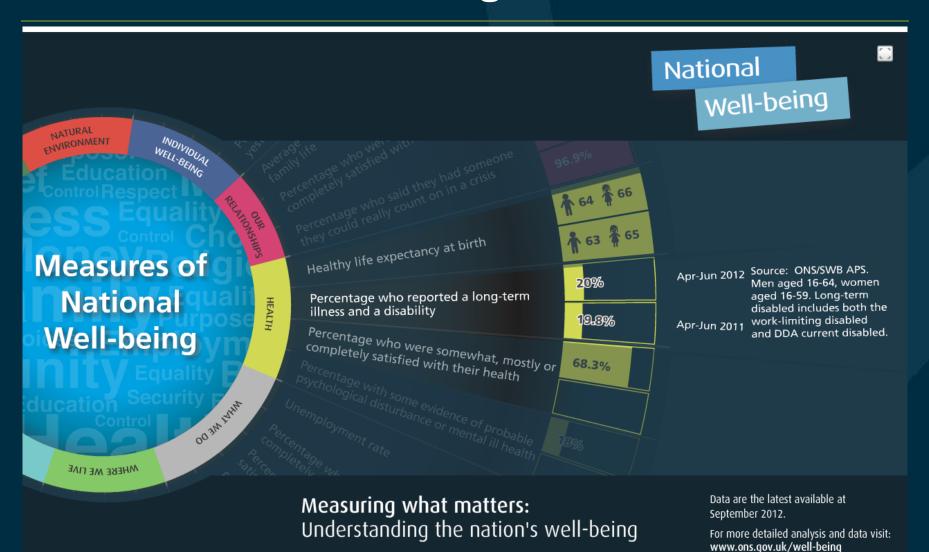

Experimental estimates from the first annual Subjective Well-being Annual Population Survey (APS) dataset, April 2011 to March 2012.

Subjective Well-being interactive bar charts

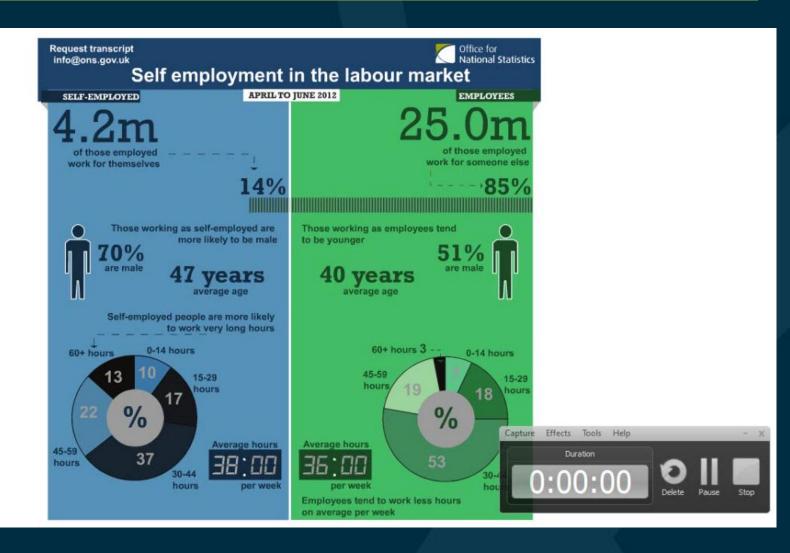

Experimental estimates from the first annual Subjective Well-being Annual Population Survey (APS) dataset, April 2011 to March 2012.

Interactive Well-being Wheel

Created by ONS Design Team

Podcasts

Conclusions

Pros

- Long history, experience & networks
- Comprehensive reports
- Accurate and reliable data sources
- Authoritative
- Conceptual underpinnings

Cons

- Relevant and accessible to policy and public?
- Frequent and timely?
- Perception of independence from government?
- Understanding of causation and drivers?
- What does it all add up to?

Conclusions

But evidence of....

- continual development
- examples of innovation
- frameworks evolving and converging
- improvements to web-based capabilities
- attempts to make more relevant to wider audience

Discussion
